

Bringing the wild back to life

Introducing the...

Wood Pasture &
Parkland Network

Who we are

- The Wood Pasture and Parkland Network is a small group of specialists keen to promote wood pasture and parkland as a habitat which has an extraordinary value for biodiversity, heritage, landscape and culture.
- The main focus of the group is to increase awareness of this incredible habitat and promote best practice management.
- The WPPN was born out of the UK Wood Pasture and Parkland Technical Advisory Group.
