

Veteranisation of Young Trees

21st or 22nd November 2019

9:00 – 16:00, Clumber Park, Nottinghamshire

Course leaders: Vikki Bengtsson and Reg Harris

Managing for deadwood habitat in living trees – a comprehensive one day course for countryside managers, arborists, rangers and advisors. This course is designed for those managing sites where there is an age gap between the old trees and the next generation. The course will take you through the theory as well as demonstrating some of the pioneering practical techniques to encourage faster development of habitat in younger trees.

 **Urban Forestry**
Bury St Edmunds

Objectives

This course aims to give delegates a greater understanding and experience of veteranisation

Following completion of the course, delegates should be able to:

1. Define veteranisation
2. Explain why, when and in what type of site veteranisation is appropriate
3. Explain the ageing process and natural processes and how we can use this in relation to veteranisation
4. Understand how to carry out some veteranisation techniques in practice
5. Describe some different types of habitat that can be created and what species may benefit

Course fee and booking info

This training event has been organised as part of the Woodland Trust's work across the Sherwood Forest landscape.

Standard course fee:
£150, payable upon booking

Subsidised course fee:
£50 - available to those who live or work within the Sherwood National Character Area (see map)

Lunch is included; let us know any dietary requirements when booking.

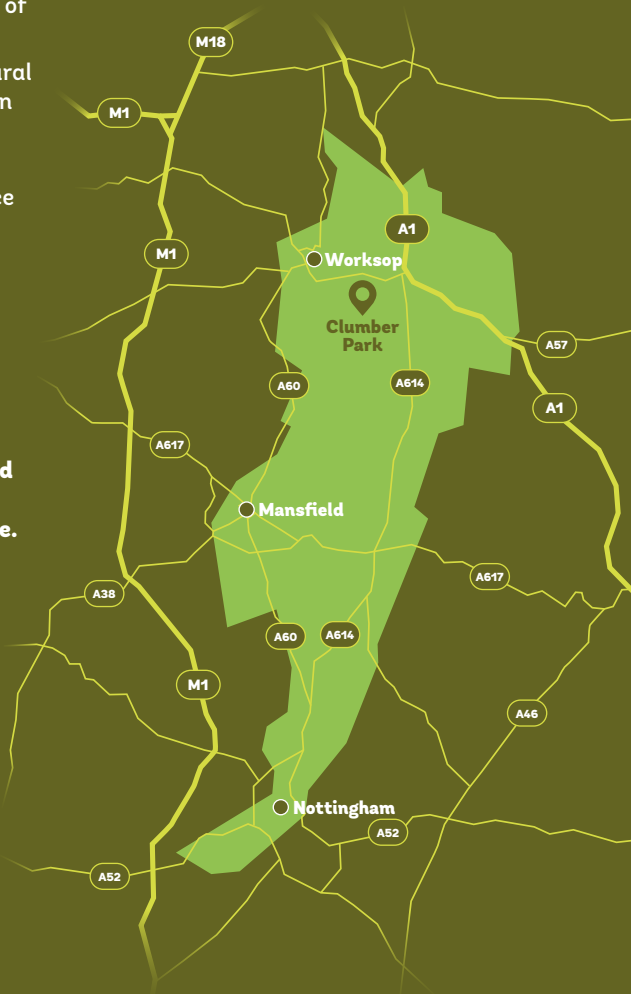

To book your place, visit
